A NEW ERA IN HAIRDRYERS

THE LIGHTEST, MOST POWERFUL AND TECHNOLOGICALLY ADVANCED DRYER IN HISTORY

- Ultra-fast 110,000 RPM motor provides exceptional power
- Weighs 294g... half the weight of regular dryers
- Can be held by either the barrel or handle for overhead drying
- Innovative Oxy Active, anti-bacterial technology with an ionic generator
- Auto-Clean Technology reverses the motor to clear the rear filter when needed
- Auto-Diagnosis System detects any operating issue
- Memory function recalls previous settings
- 12 possible speed/heat settings plus a cold air function
- Includes diffuser and two nozzles

Dryers will never be the same. The future is here. Exceptional performance and technology in a ultra-light, easy to use compact design is truly a market disruptor.

Available from Glamaco, selected Hairhouse Warehouse and Price Attack stores, ozhairandbeauty.com, myhaircare.com.au, sydneyasalonsupplies.com.au and leading salons. For stockists contact Dateline Imports P/L on 1800 251 215 or visit i-glamour.com

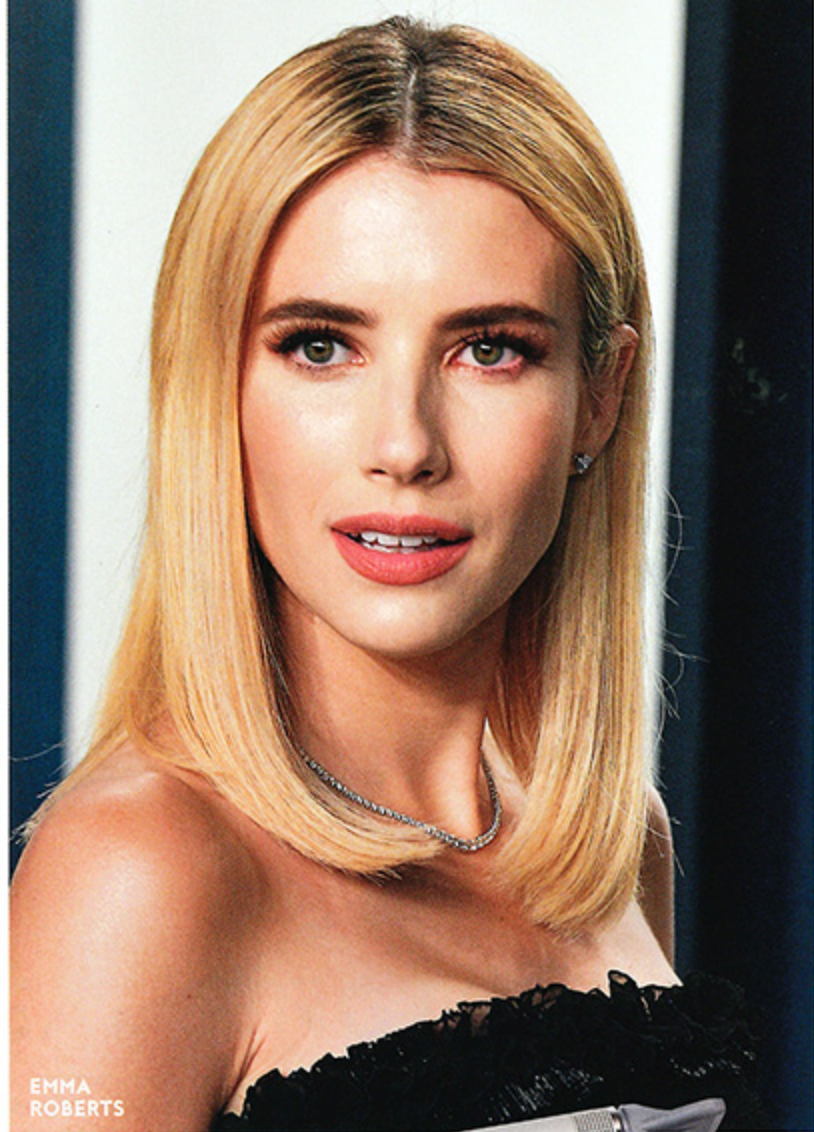

ELIZABETH
DEBICKI

GROWN LOB

THE LOOK For mid-length hair that feels stuck in a "growing out" phase, a small tidy up to the ends will make a big difference. "Cutting in a strong baseline edge to a lengthening lob is essential for a healthy-looking style," says Nader. "Plus, some soft, long face-framing layers will add extra volume if you need it."

STYLE IT SMOOTH

Apply a high-gloss hair serum to damp strands. Using a blow-dryer, point the nozzle downwards to help smooth the hair. Once dry, blast with the cool-shot function to enhance shine.

MICROTREND: VA-VA-VIVID

THE LOOK "For those brave enough, 2020 will be a colourful year," says Patrick Fitzpatrick, education manager for Schwarzkopf Professional. "Expect everything from electric blue to iridescent lilac." For a subtle pop of colour, ask your expert to place bright tones using a 'peekaboo' application.
