BEAUTY UPKEEP

The at-home beautifying devices you need!

With our professional beauty treatments on hold until further notice, there's no better time to invest in at-home gadgets that deliver salon-quality results. Here are our top three...

GLOW GETTER

Professional LED light treatments are not only super relaxing, but their benefits on calming skin are amazing, too. This medical grade LED Light Mask, which offers three powerful therapeutic lights, takes just 10 minutes a day – ideal while watching your next Netflix binge! The blue

light helps combat the appearance of acne, the red one slows the signs of ageing by promoting collagen and the yellow light boosts the oxygen in your cells to help prevent pigmentation.

1 Peppy Co LED Light Therapy Mask \$179

MAJOR LASER

If you're worried about looking like a yeti at the end of this lockdown, then it's time to get lasering, pronto! This gadget is the new and improved at-home IPL hair removal handset, which is more powerful, has a quieter fan and a 20 per cent larger light window,

so you can treat more areas in a flash! **2 Happy Skin Co Gen.2 IPL Hair Removal Handset \$299**

BOUNCY LOCKS

What better time than now to learn how to curl your hair! If you're impatient, this tool does all the heavy lifting for you. Place a small section of hair from the root to mid-lengths in the opening. Then with the push of a button, the internal ceramic barrel gently twirls hair around and holds for eight seconds. When it beeps, pull the tool away, releasing the section to unveil a gorgeously even curl.

3 Silver Bullet XOXO Auto Curler \$195

3 of the BEST

DARK SPOT CORRECTORS

1 Skintitut Even Blend Serum \$34 This blend of Swiss alpine botanicals helps to slow pigment production while glycolic acid boosts cellular renewal. Say goodbye to darkness!

2 Nimue Fade Treatment \$72 A strong spot treatment that's perfect for pigmentation and discolouration.

3 Plunkett Superfade Accelerator Serum \$24.95 This spot fader promises an 80 per cent reduction in mild pigmentation thanks to its unique blend of BHA, AHAs and ferulic acid.
