beautyandlifestylehunter Shaking up my Haircare with the newly launched products from @theorieaustralia - the Marula & Argan Smoothing Shampoo and Conditioner.

They are enriched with nourishing argan, marula, sage and grapeseed oils, and a blend of antioxidants and moisturising fatty acids, and fortifying keratin, to help protect the hair from future breakage and promote brilliant shine, while also restoring strength of moisture of dehydrated, distressed and over-processed hair.

The sulphate free products leave my long coloured hair feeling so silky soft and smooth, and with a renewed healthy shine. I also love that these professional salon quality products are cruelty free and free from parabens too, and they're so gentle that they can be used daily on my colour treated hair. Plus, I love that they come in those huge pump bottles, making them so easy to use in the shower. And they smell amaze!

I've also been loving these new rose gold brushes from @wetbrushaustralia - they are not only super pretty, they have also made a tremendous difference to my hair.

The Epic Professional Quick Dry Brush has a unique vented design that allows for faster airflow and thus speeds up drying time, and essentially exposes the hair to less heat damage. The Epic Professional Deluxe Detangler is a cushion brush with ultra soft IntelliFlex Bristles that simply glides through tangles without any pulling, and thereby minimises split ends and damage to the hair. They're my new go-to brushes, they really are epic! All products are sold via @iglamour_au.

Have you tried any of the products from #theorie or brushes from #wetbrushpro? And have you shopped at #iglamour?
