lovinggirlylife I'm usually not the biggest hairspray person, because I hate the look of 'rigid' hair, but this one by @echosline.official has completely won my heart ♥
The main reason why my hairstyles don't last is humidity, and the fact that this hairspray works precisely against that makes it perfect for me and 100% effective. Also, if I apply the right amount, it still lets my hair have heaps of movement and look great!
