STUDY DAY 'DOS

Your head may be a mess during study time, but your hair doesn't have to be!

Side pony

Is your hair totally untameable? Work with your natural texture to create a chunky side pony.

Top knot

For the ultimate dirty-hair 'do, use a hair donut to beef up your bun and keep it effortlessly neat.

Messy bun

Want to get your hair off your face and still feel pretty? Wrap your ponytail into a bun and secure with pins. The messier the better!

Sleek pony

Make second-day hair your BFF with a smooth, high ponytail. Run some serum through your lengths for a sleek finish like Nina's.

Half up

Elbow-deep in essay prep? Get your hair off your face in a flash with this easy half-up look. Pull the two front sections of your hair back and pin into place with a pretty clip.

Side plait

A side plait is super quick and looks cute in even the most neglected strands. For extra hold, spray and scrunch with a texturiser before plaiting.
