This moment we love THAT '60S SHOW

Winged liner, matte faces, coloured lips and sky-bound hair... it can only mean one thing: the '60s are back. Seen on the catwalks at Chloe, and with a twist of coral lip at Rochas, this trend has got something for everyone. Experiment with big lashes, try some liquid liner or become a (hair) tease. Whichever you choose, channel some Twiggy, get bopping and ooze that '60s cool.
