beautyandlifestylehunter Now just how pretty are these bottles!! But they're not just pretty, they are super unique, as the Puff.ME and Puff.ME Light by @designmehair actually volumising powder in a pump. They're seriously clever, and so amazing, even adding weightless volume to my thick long hair. And it's so easy too. And then there's the PowderDry.ME which cuts blowdrying time in half and seriously who doesn't like to hit the snooze button once more in the mornings, and all while exposing your hair to less heat styling. I'm in love with these, but you can read more #ontheblog , link in bio. Oh, and you get them via @iglamour\_aus . Have you tried any of the products from #designme ? What's your #beautyhack for hitting the snooze button once more? 💕
