beautyandlifestylehunter Shades of green.. and here's a few I've been loving lately - the Fab.ME from @designmehair The Mother of All Hair Treatments, is seriously the ultimate multi-tasking leave-in treatment promising a massive 18 benefits for your best hair ever. The benefits include among others detangling, colour fade protection, smooth split ends and prevent breakage, protect from heat damage, free radicals and environmental damage, and reducing blow dry time. But it also helps add moisture and condition the hair, enhancing shine, strengthening and adding volume to the hair and controlling frizz and static. Need I say that I think its nothing short of incredible.

And in my shower, I've been enjoying the luxurious @ecobysonya Mint Body Wash. The Australian made vegan and cruelty free
