My little *pony*

Monday

Sleek and high

HOW TO: Start the week off in chic style with a pony that means serious business! Gather your hair up with a brush to keep it sleek and smooth, then secure with an elastic. Run a straightener through the tail followed by some smoothing serum for a sleek and glossy finish.

Remington Pearl Styler
\$133.95 KMS California SilkSheen
Polishing Serum \$31.95

Tuesday

Messy texture

HOW TO: Who said a ponytail had to be boring? Using a medium-sized curling wand, curl random sections of hair then spritz all over with a texturising spray, scrunching it softly with your hands. Leaving a small amount of hair out at the front, pull your hair up into a high pony and secure with a hair tie. Tuck your fringe behind your ears and mess up your pony a little more for full-blown texture.

Rescue Radiant Sea Spray \$29

Wednesday

Bubble trouble

HOW TO: Battle those hump-day slumps with this cool style. Start off with a high pony, then run some texturising paste or cream through the tail for a bit of extra grit. Position clear elastics over the pony, about five centimetres apart. Soften the hair between the elastics with your fingers, pulling it out gently to create "bubbles".

On a roll

A cute side pony with a twist – literally! Sprinkle a little volumising powder through your roots for extra body and hold. Create a deep side-part and section off the front part of your hair. Pull the rest of your hair to the opposite side and secure it into a low pony. Twist the front section back and wrap the tail around the hair tie before pinning it into place. Got shorter hair? Twist your fringe as far as it will go and secure with a pretty clip.

Lady Jayne Bobby Pins \$3.59
(pack of 25) Schwarzkopf Extra Care
Instant Volume Powder \$8.99

Stuck in the middle

A sleek crown teamed with a textured pony is edgy and unexpected. Create a middle part and smooth back hair using a brush so there are no bumps. Secure at the nape of your neck. Spritz the pony with a texturising spray then tease and scrunch away. Voila – a fun and funky way to take out the week!

TIP: WEARING YOUR HAIR IN A PONYTAIL ALL DAY CAN BE STRESSFUL FOR YOUR STRANDS, SO BE SURE TO BATTLE BREAKAGE HEAD-ON WITH METAL-FREE HAIR ELASTICS.
