**OUT OF LINE**  
 Forget fretting over the perfect cat-eye and embrace a more freehand approach to eyeliner. Arm yourself with a felt-tip or gel liner and try a half wing (seen at Monse, Lanvin and Erdem) to lift the outer corners of eyes without the commitment of a full line. For edgy without the edge, opt for a rounded-off flick, like the ones seen at Tom Ford and Jason Wu, or go graphic with finely sketched lines around the eyes.

**CENTRE OF ATTENTION**

Not feeling the hair flip anymore? Apparently neither were some of the backstage beauty teams this season, with reincarnations of the centre part spotted across all four cities. The common thread? Roots were straight and polished – so don't try this look without a smoothing balm. >
