SILVER BULLET

HOTTER. FASTER. BETTER.

KERATIN 230 TITANIUM

What's the 230 difference?

The **Silver Bullet** Keratin 230 Titanium Hair Straighteners feature adjustable, accurate heat up to 230°C which will straighten any unmanageable hair type with speed and ease. Advanced surround heat means you can create curls, flicks and waves faster. It's the reason why **Silver Bullet** is renowned for being hotter, faster and better!

 /silverbullethair  @silverbullethair
