kykhair 🍀 How to DEFINE those Vintage Grooves by @kykhair
After brushing out the hair we used @batisteau Hairspray smoothen and tame waves, also helps between grooves. With a teasing comb brush the edges for extra perfection as shown in video and then place clips.

Used flat sectioning Clips to exaggerate the definition in the waves. Available from @datelineimports

This clients hair is shoulder length so this technique is to also help her hair blend with her hair extensions so you can't see any short pieces stick out ❤️

Once all the clips are in.. give a final spray and let the hair set for 5-10 minutes and then pull clips out!
