kykhair This is what you achieve when the client insists on a middle parting ... you curl away from the face so then the curls clash down the middle... but it's still a vibe!
Curl using @babylissproau 25mm curler away from the face both sides.
Brush out the curls using a tangle tonic brush by @amrhairbeauty to achieve such soft beautiful waves.
Finish off using shine mist and fixation hair Spray by @nakhair ☐☐
