lovinggirlylife I had no idea that some heat protectants are specific for dry hair and some for wet hair. That's why I've been reaching for this Beat The Heat by @nymbrands before styling my hair (once it's already dry) ✨ I love that in addition to protecting from the heat, it blocks UV rays, it conditions and nourishes the hair with Sunflower and Vitamin A & E. I've also noticed that it helps my hairstyle last longer, especially if it's waves or curls 🌸 Hope everyone is enjoying their Sunday 💋 #nymbrands #iglamour @iglamour_aus
