Topknots

Go sleek and chic or keep it cool and textured!

Rita Ora

Polished

1. For a sleek 'do, use a smoothing cream or gel and comb your topknot into place. It's perfect for second-day hair!

Shay Mitchell

Textured

2. For a cool topknot with an undone feel, scrunch salt spray or mousse into your locks before blowdrying, then use a texturising powder or spray for volume and grit. Use fingers to scrape hair back into your bun.

Poppy Delevingne

Fake it

3. Not enough hair for a decent topknot? Boost your 'do with a donut! Just thread your pony through the hole and roll down into a bun, securing with a band.
