Q & A
No question is ever too tricky (or obscure) for our beauty editor!

Q. CAN YOU STILL GET ENOUGH VITAMIN D WHILE USING SUNSCREEN?

Traditionally, broad spectrum sunscreens (that block UVA and UVB rays) didn't allow you to absorb a healthy amount of vitamin D, but this new sunscreen from Solar D blocks the bad rays and lets in the good stuff. 'I love that Solar D is oil free, so I can put it under my make-up and protect my face from the sun,' Solar D ambassador and former Miss Australia Renae Ayris says

Q. I WANT TO TRY A NEW HAIRDO FOR SUMMER. WHAT'S ON TREND AND HOW CAN I DIY?

Half-ups are back! This chic 'do is effortless and we love Olivia Palermo's interpretation of the look. Simply create a neat centre part with a tail comb. Loosely pull back the front section (about an inch wide) and secure with bobby pins positioned slightly higher than your ears, just below your crown.
