## HAIR GAME

Cara Delevingne is the latest A-lister to take on the lob trend, with celeb hair stylist Mara Roszak chopping her locks to the perfect length. Just remember hair is cut wet, so go longer, as it will lift when dry.

CARA DELEVINGNE

### WHATEVER YOUR LENGTH, MESSY TRESSES ARE YOUR GO-TO THIS SEASON

Say goodbye to sleek strands as spring hair is all about texture and body. It's sexy with a side of cool and complements any outfit. Plus, it make your tresses appear thicker, it's great for unwashed locks and works for every occasion. And as these celebs show, it suits everyone, regardless of hair type.

Piecey ponytails and wavy lob both require similar prep to create texture before wearing your hair down or whipping it up.

For the pony, follow in the footsteps of stars like Margot, Kendall, Hailey and Julianne. The key is to keep it soft and wisty around the hairline, with body on top and height in that ponytail.

If you have short hair like Cara, Lucy, Rihanna and JLaw, keep your lob close to your collarbone and let it fall into a messy centre part. Try the products below to build texture, and use a curling wand to create loose waves. Wait for your hair to cool down and then gently pull waves through your fingers for the right result.

## YOUR TOOLKIT

Follow this general rule of thumb to create texture: use wet products on damp strands and dry volumisers on dry hair.
