SIDE STEP

The sideswept wave isn't going anywhere and we can see why. It's oh so glam and frames the face without covering your complexion. The key is a deep side part and seriously shiny waves. Create these with a medium-sized curling tong (don't forget a heat protector!) and brush out once cool.

TWIST IT

Whether it's in a low bun like Emma's or a crown à la Rosie's, the twist is on trend. Perfect for day two hair, first blowdry mousse into damp locks for grit. For Emma's 'do, add texturising powder to the roots for height, then pin in a bun at the nape of your neck. For Rosie's, roll up and around, and tuck under.

SMOOTH MOVES

Go easy on the styling products. 'Natural hair with no product is the best starting point,' says Nanogen's Ronnie Sternberg. Use a thickening shampoo and conditioner, and blowdry with a round brush for a smooth finish.

PRETTY PIN-UP

This look is boho beauty gone glam and it works for any occasion. All you need is texture, body and a couple of pins. Scrunch in a texture spray and make sure you tease the crown before loosely pulling pieces out at the front.
