**3 WAYS WITH...**

**Blush**

Make it your go-to autumn brightening weapon. Here are three sneaky ways to ace it...

- 1** For cheeks that look naturally flushed, apply blush close to your nose and across the apples of your cheeks.
- 2** Be precise with placement by using a kabuki brush. The short stem, dense bristles and compact nature allow blush to be placed exactly where you need it.
- 3** Gone overboard? Tone down your blush by applying a light coat of foundation powder over the top.

*"Chrissy Teigen's Oscars look this year has inspired me to ditch soft neutrals for vampy berry lip shades. I've found the perfect one in Australis Velourlips in Doo-Bai \$9.95. I love the sexy matte finish - plus, it smells deliciously sweet, too!"*

Love a good blow-dry but hate the too-perfect look? Section your hair into three parts, blow-drying the lower two and leaving the top layer to create a more textured 'do. **TRY Silver Bullet Satin Hair Dryer \$79.95**

**DID YOU KNOW?**

To hide dark circles and eye bags, it works much better to dot concealer on in an upside-down triangle shape than in a half-moon. The optical illusion hides dark circles and brightens eyes beautifully. Go on, try it!
